Business Administrator Level 3

Business administrators have a highly transferable set of knowledge, skills and behaviours that can be applied in all sectors. This includes small and large businesses alike; from the public sector, private sector and charitable sector. The role may involve working independently or as part of a team and will involve developing, implementing, maintaining and improving administrative services. Business administrators develop key skills and behaviours to support their own progression towards management responsibilities.

The responsibilities of the role are to support and engage with different parts of the organisation and interact with internal or external customers. With a focus on adding value, the role of business administrator contributes to the efficiency of an organisation, through support of functional areas, working across teams and resolving issues as requested. The flexibility and responsiveness required allows the apprentice to develop a wide range of skills.

The business administrator is expected to deliver their responsibilities efficiently and with integrity – showing a positive attitude. The role involves demonstrating strong communication skills (both written and verbal) and adopting a proactive approach to developing skills. The business administrator is also expected to show initiative, managing priorities and own time, problem-solving skills, decision-making and the potential for people management responsibilities through mentoring or coaching others.

Duration: The apprenticeship will typically take between 12 and 18 months to complete.

Qualifications: Where a business administrator has not already achieved Level 2 English and Maths, they must do so before taking the end-point assessment.

Career progression: The administration role may be a gateway to further career opportunities, such as management or senior support roles.

End Point Assessment

End point assessment (EPA) is an assessment of the knowledge, skills and behaviours that your apprentice has learned throughout an apprenticeship, which confirms that they are occupationally competent.

Assessments have been designed by employers in the sector and are conducted by independent bodies known as end point assessment organisations (EPAOs).

The apprentice will only get their apprenticeship certificate after they have passed all the elements of their EPA, including any required standards in English and maths.

What does assessment involve?

Each apprenticeship includes an end point assessment plan, which describes how the apprentice should be tested against appropriate criteria, using suitable methods. For example, your apprentice may need to complete:

- a practical assessment
- an interview
- a project
- written and/or multiple-choice tests
- a presentation
- professional discussion

We will inform you at the beginning of the apprenticeship what the assessments are involved. This will give your apprentice plenty of time to prepare. For example, they may need to gather evidence to show how they've been working towards the core knowledge, skills and behaviours required.
