# SAFETY, HEALTH & ENVIRONMENT TECHNICIAN LEVEL 3 (ST0550)

This apprenticeship prepares learners to foster a positive Safety, Health & Environment (SHE) culture across various organisations. Apprentices will lead by example, drive innovation and collaborate with management to ensure statutory SHE compliance is met. They will emerge as proactive SHE leaders, ready to enhance workplace safety and sustainability.

**Apprenticeship Overview**

**Duration:** Typically 12 months + Assessment

**The Assessment**

SHE has three assessment methods:

1. Knowledge test (total 60 minutes)
2. A professional discussion underpinned by a portfolio of evidence (total 60 minutes)
3. Project report with presentation and questioning (total 40 minutes)

**Masterclasses will consist of:**

- Company Health, Safety and Environment Policies and Culture
- Identifying and mitigating Hazards
- Inspections and Investigations
- Presentation and Communication
- Financial Implications
- Research and Best Practice
- Stakeholder Engagement
- Ethics

**The apprenticeship programme will include:**

- Completion of Masterclasses - learning new knowledge, skills and behaviours to drive performance and efficiency
- Monthly 1:1 sessions with your Personal Tutor
- Application of new knowledge to develop skills
- Personal Development: development of your personal and professional goals

Our delivery style ensures all learning sessions can be scheduled in advance, which enables smooth programme delivery, organisation and the opportunity to work around protected operational/seasonal periods.
